Angie you will be forever missed.. Remembering the many extended stays with us, your crazy poofy hair and bottles of hairspray and European fashion. The quiet whispers of "Krissy" when we are about to get in trouble. Despite the adversity, challenges and physical changes due to the ravages of this disease you rose above each challenge and met it with grace and a smile. Thinking of my BC family sending love, light and prayers!!

**Tribute from Carolyn**

Relation: Friend

When I first met Angela, she was a little girl with a pixie smile that went from ear to ear. Quiet and a bit shy but a glow of bubbling excitement that seemed always ready just below the surface. Through the years, whenever we met up again, Angela continued to radiate that glow that was love for life and everything and everyone around her. Strong and selfless, Angela lived life to the fullest despite the challenges that most of us would find too much. A life too short but a life well lived. Rest in peace little Ange, you have earned your place among the stars.

**Tribute from Deanna White**

Relation: My cousin

Angie is with you. She walks with you...quietly by your side, her presence will not be denied...she walks with you. Long forgotten memories will pop into your mind...those are really whispers of laughter and love from her to remind you that she is still there at your side.

Love remains...forever...connecting us with those we love. We celebrate and honor that twinkle in her eyes, and the contagious laughter her soul brought to those around her. Memories have filled my mind of playing together with Angie as little girls. That is how I see her. Full of fun, pushing limits and enjoying the party. Yes, everything has changed now but there is comfort in the fact that she is now free of any limitations and also that her love remains with you now and always. Cheers to you Angie and thank you for your inspirational fight and for continuing to shine your light! Love Deanna and Family
