Tribute from BRent Renner

Relation: worked with him when i was a child

I first met Art in 1986, he worked at lake head freightways , I was 16, this guy could drive , the wear house where i use to work was in a small lane very hard for even cars to back in to, But not art, he could back a trailer in to your bath room and unload toilet paper,he was a role model, one hell of a great person to meet . hands like catchers mitts but a heart of gold. His wife both him and his wife ran a small coffie shop just out side of kenora , where stories would be told and tears would flow, they dont make men like Art any more , when got made Art he broke the mold I missed him when he left and i will miss him even more now you need to know Art that I am a better person for having knowen you ....

Tribute from Cindy & Nestor Kraynyk

Relation: Worked with Art/became friends

Met Art & Shirley when we moved to Kenora in 1967. We became good friends & spent many good hours snowmobiling & just having fun. Went thru the "just married", "having families", "teenagers", etc together. We are truly saddened for your loss & hope that all your good memories will sustain you in the days to come. We have had some laughs, some good rememberances, & some tears over Art's passing. You will be our thoughts & prayers.

Tribute from Nancy and Paul Hughes

Relation: Sister and Husband from England

Dearest Art ,our wonderful brother, we miss you so much here in England, we were so far away from you, we were not able to see you as often as we would have liked to in our life time. What a brave man Art was and was so clever and artistic, as his name suggests. But now he is out of pain and suffering, he is at peace with your dear son Jason, our brother John and Mum and Dad. Paul and I are so thankful that we had the opportunity to see Art before he died and spend precious time with you all, the memories we have will be in our hearts forever.
Art loved you so much Shirley, Miriam and family and was so proud of you all. I am sure the love and memories you have of dear Arthur will get you through this heart breaking sad time, be sure he is looking down on you and keeping you safe. We hope it gives you strength to know how much Art was loved and is missed. God bless, from your loving family here in England.

Tribute from Karen Morgan

Relation: Niece

I'm Arthurs niece and even though I have only met him once in my life time (and I'm 44) he's always left a lasting impression. Being in England the distance has been the issue but the stories I have heard from my mother and father when they have visited and the stories of Arthur when he was young keeps the family ties strong.
The pictures my mother has of her brother remain the same from when he was young to the later years - he still looks the same, a little greyer round the edges but he still has that twinkle in his eyes. He was a truly lovely man and I know he will be greatly missed. At least there is no more pain for Arthur only the pain that Shirley and Miriam are now going through.
Rest in peace x

Tribute from Deborah Hughes

Relation: Niece

Arthur was always part of our lives even though he lived in another part of the world. Mom always kept him close to her heart.She spoke of him often and always kept in touch.
When Uncle Arthur came to visit some years ago I can remember being in the car with him ,listening to his lovely accent as he was wondering why we had all these islands on the roads over here in England . In Canada they didnt have Islands. During that same car journey he told me about Shirley ,and to quote said "she was a hell of a woman" and that "he 'd never meet anyone like her ,and that was why he was still with her".
Thats for you Shirley if you get to read this.You were deeply loved.
To Miriam and girls we send love and hugs. I do believe Arthur is with Lovely Jason and they are always around You.
Love to you all and God bless.

We miss Art very much, and are better off having known him. Fond memories of family visits and trips and they still bring a smile when we recall some of our get togethers.
