I'm saddened that Brian is no longer with us. In the 14 years I've worked with him, he was professional, helpful and always willing to work with me. I will never forget my last conversation with him regarding his trip to India.

Dr. Wolfe was one of the most knowledgeable, kind, caring and generous individuals that I have ever encountered . It was an honour to have worked alongside him. He was someone whom I dearly respected and turned to often for guidance. He is and will continue to be painfully missed by the medical imaging department at CDH.

Tribute from Carol Petrie

Relation: Coworker and friend

It's with a very heavy heart I leave this condolence. I worked with Brian for almost 28 years. Brian was one of the most competent Radiologist I had the honor to work with. He always did everything with precision and 100 percent effort.

Brian was instrumental in the process to obtain the first CT and Bone Densitometer for CDH. He was a such a strong advocate for the Cowichan Valley.

On a personal level, Brian had such a good sense of humor. Many imaging parties spent enjoying his special video presentations.

Brian, you were our rock and will be missed more than I can ever express. My sincere condolences to Sandy and entire family. You all meant so much to him.

Tribute from ANDREW AND JUDITH HENDERSON

Relation: Colleague and friend at Cowichan District Hospital

Brian has been a wonderful colleague and friend . On many occasions I sat with him discussing x-rays of my patients. His expertise and help was invaluable. The arrival of our CT scanner was so much due to the efforts of Brian and Sue Dove. At meetings Brian always put forward thoughtful comments. His associates in the department and on the medical staff enjoyed his quiet but thoughtful advice. I often had the opportunity to discuss his travels with Sandee to many destinations . We met on several occasions at St Peters Church , Quamichan where Brian, Sandee, Judy and I are parishioners. Judy and I are so sorry for your loss and do send you our love at this time.

I only hope I can find words that are worthy enough for our Dr.Wolfe, because he was very deserving and very special. Of that there was no doubt. At work, he was thought of as ours, as you would one of your family. We came to count on him for his dedication, diligence and direction, and he never let us down. While he was our constant, he was also constantly surprising. Immensely capable but forever humble. So private, but genuinely open. The epitome of a restrained professional on one hand and a free, passionate spirit on the other...his breakdancing comes to mind. With eagle sight he oversaw every detail of our work as techs and then applied the same to his own work. He inspired us to the best of standards and then recognized our abilities when we met them. His interests and talents were a vast and still untapped universe for him, many remaining hidden to us behind one raised eyebrow and twinkle in the eye that was his best poker face. He always seemed to know more than he was telling. It was impossible to really know how much was in there. He was a master of minimal waste - in motion, minutes, or words - allowing him to

accomplish more than anyone I know.

In 14 yrs of knowing him as a tech, and briefly as a cat-sitter, I felt I had only barely scratched his surface. To me he was an enigma, wrapped in a mystery, ending in a riddle. It's impossible to reckon with the loss of someone so special.

My heartfelt sympathies go out to Sandee and his family.
