Tribute from Julie Price

Relation: Acquintance

Just thought I would send my condolence to James' family and friends at this difficult time. I have only known him for a short time, but James would visit us here @ Steel Pacifc atleast once a week with some material to recycle or dispose of and he was always a pleasure to see and have in the yard. So sorry for your loss. He will be greatly remembered here as a happy man. He always put a smile on my face. Thanks

Tribute from Vernon Swarbrick

Relation: business aquaintance

I wish to express my condolences to James family and relations. I was employed by James to do some gunsmithing work and we had a good working relationship. I built a new stock and refinished the metal on one of his favorite rifles. I was proud to have done this work for him and he kept me in stitches with his stories. I will really miss his entertaining stories and knowledge.
