Tribute from fiona devereaux

Relation: Student

Thinking of Lesley and her family with the passing of their dad and family member. I always think of Mr. Hook and all the kindness and generosity he gave to us women's basketball team. His dedication to us and the game provided me with some of the best experiences through high school. I barely made it through physics so grateful to get to know him through ball. Thank you dearly for your time and passion. Sending you all my love and support during this difficult time.

Tribute from Jacob

Relation: Student

My sincere condolences to the family and friends who had the pleasure and honor of knowing the man I will always think of as "Mr. Hook". He was the first teacher I met when starting high school, and was one of the most instrumental in taking an otherwise indifferent student and getting me interested in physics.

I always enjoyed his classes, either when being taught, or while trying to get him to tell us stories instead. I was very lucky to have had you as a teacher, and I am saddened to hear that you are gone.

Tribute from Lesley Hartford(Ridenour)

Relation: One of my high school teachers, One of Dads coworkers.

Mr Hook taught me Physics at Cow High and was an excellent teacher. My Dad knew him well as he also taught at the high school. I met him once when I was very small and he told me to read the Hobbit because I was an insatiable reader...I took him up on that
