Relation: We knew each other through our work place in the hospital

My deepest condolences to Kim's family and Debbie. In the time I worked at CDH, I would see Kim coming and going in the halls or stocking up the med room when I was going to fetch supplies. He had a contagious smile and was always up for a chat even when things were busy and we were rushing around. He would provide a quip, or a joke, or just a how are you. He was an integral part of hospital life both in the day to day functioning of what was needed and connecting with the staff. His casual neighborly manner was grounding, to me, and so very needed in a busy hospital to ease the daily stressors. We would often have a laugh while we were both rushing around - which just somehow made the day better. My heart goes out to all his loved ones. May he rest in peace.

I am truly shocked to have heard of Kim's passing. I will miss dodging your cart in the ER hallway Kim as you would jokingly try to play bumper carts. RIP Kim
