Relation: Friends

Dear Rose,

So very sad and sorry to hear about Pat's accident Pat was such an engaging , charming person with a big heart , ready laugh and enormous talent and intelligence. We remember her building the massive bookcases out of Sue's trees in our home, designing the most aesthetic dimensions for the wood , making those dados perfect, her intense concentration sanding the wood. She was an artist , putting her skills into creating something that was important for Sue. In so many ways she also got to live a dream that many of us hope for , being able to live happily with her lover for forty years , getting to create with you your lovely organic farm and home ,complete with her beloved horses dogs and

bees, having meaningful work plus building a supportive community of family and friends. A rich life indeed, lived with clear intention, but far too short. Our thoughts are with you at this time. In memory of Pat, we are making a donation to the BCSPCA. Take good care, Rose.

Rose I am so sorry for your loss- you are in my thoughts - I have never met Pat but she sounds like she was a woman who lived her life well and cared for many whose path she crossed- my heart goes out to you and her family- take care

Tribute from Heather Browning

Relation: co-worker and friend

To Rose, I can only say my heart is heavy, heavy at your loss of Pat and the tragedy of her loss of life so prematurely. I think she was my favourite person to work alongside and I very much missed our conversations and time spent together when the Lodge closed and we went to different work places. My grandson, Demetri, has fond memories of coming out to the farm with me when he was a little guy, playing with the little goats, petting the horses and fishing in the pond. I cannot imagine how difficult this all must be for you but I believe the spirit of Pat is not gone and I hope you are able to feel her presence still.

Dear Rose & Tryon Family

How saddened I was to learn of Patsy's passing today. My sincere condolences to you all. The last time I saw Patsy she was in her middle teens and just spreading her wings. Wish I could have known her as an adult. It appears she had many accomplishments in her life, and was well liked by everyone who knew her.

Although we had not seen each other for many many years Patsy was an inspiration a trailblazer in the things she did. passing.

Dear Rose, I am not sure if this will get through but wanted to express my deepest condolences for the loss of your true love. I have been in a bubble of sorts myself (with Samantha my daughter) since 2019 and just now starting to explore the outside. Please reach out to us if there is anything that Samantha and I can do or if you are in town and have time to stop by for a chat. Much love my friend!
